ABOUT THE COVER

Paul Templar has been at it again. Never satisfied with his layout, he has once again gone in to make some significant changes to his On30 Cooncreek and Tumbleweed Springs layout. Turn to page 36 to see the latest changes on the C.A.T.S. *Photo by Paul Templar.* **INSET:** Prototypical railroad operations can be accomplished even on a small layout. David Butts shares how he handles operations on his 6' x 13' sectional layout beginning on page 24. *Photo by David Butts.*
